

Instructions to view 3D layout files in STEP format

- 1) Download zip file on the website under the respective product page. Unzip and extract the STEP file for 3D layout
- 2) Autodesk provides a Viewer tool to view the layout files in any format. This software is free and available at <https://autode.sk/2luliVU> . You might have to sign up for Autodesk.
- 3) Once you have access, upload the STEP file downloaded from the website. Once the file is uploaded, it will be stored in your account.
- 4) The tool also allows to make measurements on the 3D layout.
